NEW G2 2nd Generation

Improved access, durability and comfort

The unique soft, hollow flexible tip makes the brush far more durable by reducing the strain on the wire during use. It is also easier to insert the brush further between the teeth which improves access without having to make the wire longer. The soft flexible neck makes it easier to use between the posterior teeth. Initially available in the smallest sizes.

TePe Extra Soft

Exceptionally soft and long filaments of the highest quality ensure efficient cleaning and durability. Ideal for gentle and safe cleaning around orthodontic appliances.

Chewies™

A simple solution for properly seating aligners

The aligner Chewie provides a soft chewing device the size of a cotton roll that can be dispensed to patients being treated with plastic aligners. Chewies are a cleaner, more professional alternative to cotton rolls and they provide uniform force in a specific area of the mouth where needed. Packaged in individual patient bags (10 bags of 2 Chewies each) or in a bulk bag of 25.

Ortho ReadyBrush™

Deluxe pre-pasted disposable toothbrush

Nothing can be simpler! The refreshing mint toothpaste is activated by just wetting the soft, rounded DuPont Tynex nylon bristles.

The bristles are V-cut to provide thorough cleaning without interfering with orthodontic appliances and gripper bumps provide extra comfort.

Individually wrapped and hermetically sealed, the Ortho ReadyBrush is designed to be taken anywhere and is perfect for pre-appointment brushing.
