

High Heat Cheek Retractor

The easy to use, one size fits all Cheek Retractor that provides superior intraoral access. The unique buccal extensions retract powerful buccinator muscles for maximum access. Made of high quality medical grade materials that withstand repeated sterilisation.

Fully Exposes Both Arches to Provide Maximum Access

- Direct and indirect bonding procedures
- Full field access
- Interproximal stripping
- Bite registration
- Photography
- Debonding
- Microetching

Advantages:

- Unique intraoral extensions retract buccinator muscles
- Provides unobstructed view and superior buccal access
- Maintains accessibility during all types of procedures
- Safe for autoclave and dry heat sterilization up to 350°F/177°C
- Maximum patient comfort
- Easy tension control
- Boosts visibility to intraoral work areas

Product Code: 601-190

Price £8.95 each

5 or more £7.95 each

Extraoral Cheek Retractors

- Allows a full view for direct bonding
- One piece design with strong plastic

Nola Dry Field System

Achieve Total Bonding Success...

The Nola Dry Field System completely eliminates saliva and fully exposes both arches making it ideal for all bonding applications.

The system is easy to assemble and be inserted and used by a single operator. The entire system is completely autoclavable making clean-up easy.

- Full Arch Access for Bonding
- Adjustable to Arch Length
- Maximum Patient Comfort
- Excellent Soft Tissue Retraction
- Fully Autoclavable
- Reduces Rebonding
- Prevents Treatment Delays
- Autoclavable to 280°F/135°C

- Adjustable Cheek Retractor**
Keeps the cheeks back and fully exposes both dental arches
- Tongue Guard**
Holds the tongue in place and allows the patient to continue swallowing
- Low or High Volume Bilateral Silicone Tubing**
Precisely directs saliva flow and ensures unrestricted evacuation for a totally dry environment
- Central Suction**
"Y" connector adapter (low-volume and high-volume also available)

 Price £47.50 each

Optragate® ExtraSoft

Optragate ExtraSoft is an innovative alternative to cumbersome, hand-held rigid cheek retractors that get in the way and obscure the treatment field. It allows the patient's lips and cheeks to be gently and evenly retracted to provide a full view of the oral cavity, while leaving the lips completely covered and protected. Optragate ExtraSoft is flexible and elastic and allows unimpeded jaw movements during the entire procedure. It is latex free and is suitable for use with latex allergic patients and staff.

Optragate ExtraSoft Junior has been specifically designed for children where obtaining adequate access can be extremely difficult and stressful.
