

# OrthoMation

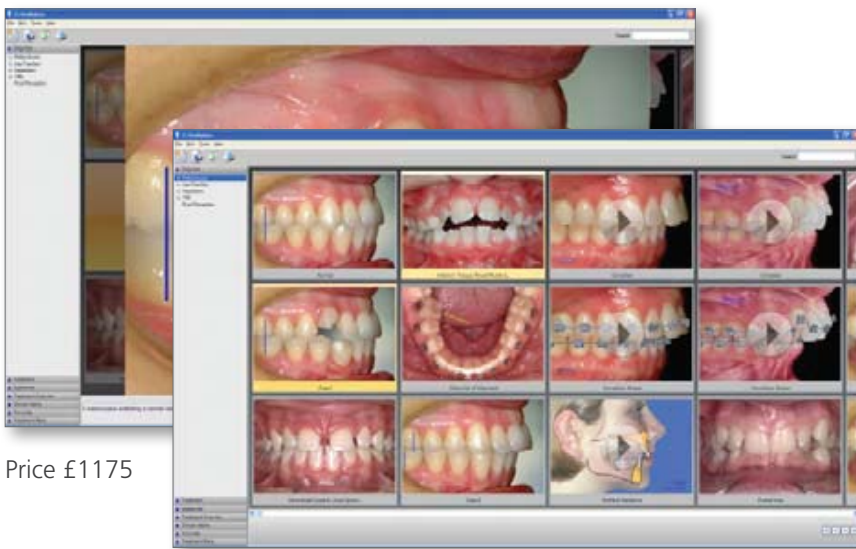

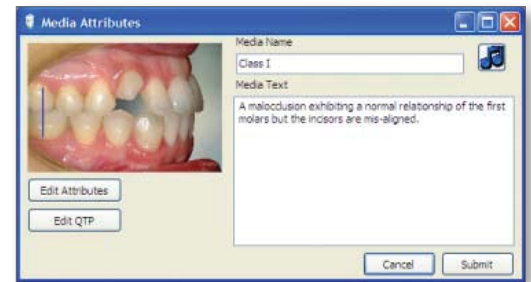

Case presentation software

Start more private patients!

This new version of OrthoMation has been completely redesigned using a new SQL database that provides quicker response and greater network stability. A new visual-based layout has been implemented along with a new slideshow and the ability to add custom media. Each image or movie can now be assigned custom attributes that will make the search even more efficient. In addition,

images can be tagged as "Favourites" or "Hidden" if they are rarely used. All editing of image and movie properties can now be completed from a single window. This allows for customizing titles, text, attributes and audio all from the same interface. In addition, numerous images and movies have been added to ensure that examples of the latest orthodontic technology are available.

Price £1175

- Totally redesigned user interface allowing for ease-of-use and quicker workflow
- Optimised for touchscreens
- Visual display of the media as thumbnails instead of text
- Enhanced Search combined with new attribute function allows you to find images and movies faster
- Over 250 new or updated images and movies
- Drag and drop treatment plan creation
- Enhanced slideshow uses a new interface for a current look-and-feel

## Add your own pictures

OrthoMation 9.1 will allow you to quickly add images to the programme in order to customize your presentations. Take images of your own cases and add them to the standard library.

## Favourites

Images and Movies can now be tagged as "Favourites" so you can quickly find the items that you show frequently.

## Attributes

Attributes, or custom tags, can be assigned to images and videos to make the search feature more precise.

## Drag and drop

Create treatment plans by dragging and dropping media into a filmstrip.

## Send home plans

Reinforce the information that was presented in the surgery for an increased case acceptance rate. Treatment plans can be printed or burned to CD to send home.

## 30 day money back guarantee

We are confident that you'll love OrthoMation, but if you are not completely happy, return it and we'll give you your money back!
