

Patient Care

Comfort Cover™ "The Ideal Alternative to Relief Wax"

Fits Aesthetic and Metal Brackets

Comfort Cover shields the patient's lips and cheeks from the discomfort often associated with orthodontic treatment or activities where the risk of oral laceration could occur, such as playing musical instruments or light contact sports where mouthguards are excessive. Each patient set of Comfort Covers protects both the upper and the lower arch and is latex free.

Snaps Easier Into Place and Stays More Secure Than Competing Brands
