

Designed for Maximum Patient Comfort and Clinical Performance

- Completely pre-programmed straight-arch system
- Twin design with streamlined ball hooks
- Maximum aesthetics for aesthetic treatment

Bonds and Debonds Just Like Metal

- No plastic primers needed for bonding
- Flexible material allows for easy debonding using standard techniques

Injection Molded High Quality Reinforced Composite

- Unsurpassed bracket body strength with precise slot dimensions
- Smooth slot finish for improved sliding mechanics
- Advanced material eliminates the potential of enamel abrasion

Torque-In-Base Design

- Delivers level slot line-up in final treatment phase

Rave!™

Composite Bracket System

See pages 17 & 62 for Tooth Tone Wires and Accessories

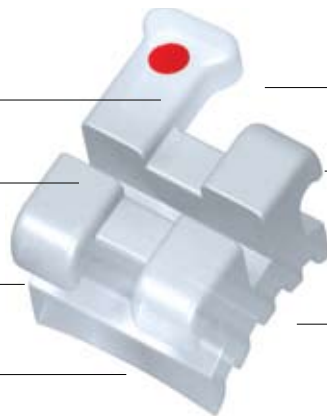

Removable Colour Coded ID Dot
For easy bracket selection

Molded Archwire Slot
The smooth molded finish provides improved sliding mechanics

Highest Quality Material
Made from high quality reinforced composite

Compound Contour Base
Provides simplified and accurate bracket placement

Bonds and Debonds Just Like Metal

Ultra-Smooth Ball Hooks
For added patient comfort and secure engagement of elastics

Contoured Tie Wing
For added patient comfort

Ample Tie Wing Area
For easy bracket ligation

Micro-Etched Mechanical Bonding Base
Provide superior shear bond strength

Micro-Etched Magnification
Provides millions of additional undercuts to grip the adhesive

No Plastic Primers Needed for Bonding
