

# FlowTain™

Recommended  
for use with Ortho  
FlexTech. See page  
69 for details

## Flowable Light-Cure Composite

FlowTain's low viscosity makes it ideal for bonding lingual retainers, splinting materials and indirect bonding of brackets. It is very smooth when cured which will reduce wear and enhance patient comfort.

- Flowable viscosity - even though FlowTain is a flowable material, it's thixotropic properties prevents it from slumping for better control
- Cured composite flexibility - when cured FlowTain has a low modulus of elasticity and is not as brittle as conventional composites
- Needle tip dispenser - using the tips provided, FlowTain is easily injected onto lingual surfaces and across fibre splints

Product Code: TOC-FT

1.5g syringe with 10 needle tips

Price ..... £16.95 each

## Ortho FlexTech & FlowTain Kit

Product Code: TOC-OFTKIT

Kit of Ortho FlexTech reel plus FlowTain

Light Cure Flowable Composite

Price ..... £95.00 kit

# Resilience

## Resilience Light-Cure Band Cement

by 3M Unitek

## Light-Cure Single Component Push Syringes

A light-activated band cement in a single paste system which provides a longer working time and a rapid setting time. Can be placed directly into bands. Excess flash is easy to clean up prior to the light curing and the cement is easy to see due to the blue colour. Fluoride releasing to reduce the chance of decalcification.

## Light-Cure Band Cement Kit

Blue Shade .....FC-RESI-038

6x 5gm Push Syringes

Price .....£78.00 kit

## Refill Syringes

Blue Shade .....FC-RESI-041

5gm per Syringe

Price ..... £14.95 each
