Courses presented by
Professor Derrick Willmot
BDS PhD LDS FDS MOrth

Derrick Willmot recently retired as Consultant Orthodontist at the Charles Clifford Dental Hospital Sheffield. He is Emeritus Professor of Orthodontics at the University of Sheffield and he maintains a small private practice in Chesterfield, Derbyshire.

In 1984 Derrick was appointed Consultant Orthodontist at Chesterfield Royal Hospital and Sheffield Dental School, and in 1992 he became full-time at the Charles Clifford Dental Hospital, Sheffield, and The School of Clinical Dentistry of the University of Sheffield. He has been Training Programme Director for Orthodontics for many years and has been Chairman of the SAC in Orthodontics and Paediatric Dentistry and Chairman of the Intercollegiate Membership in Orthodontics Examination Board. Derrick has also been very involved in the development of Dental Specialist Training over the years. He has given many lectures and courses for practitioners at all levels. He examines the dental specialties for several Universities and Royal Colleges in the UK and overseas.

Derrick has been an elected Board member of the Faculty of Dental Surgery for some years and was elected as Vice-Dean of The Faculty in 2005, becoming Dean in 2008. He joined the Council of the Royal College of Surgeons in 2007. He was president of the South Yorkshire Branch of the BDA in 1992 and he was recently awarded the John Tomes medal of the Association in 2011. He is now a life member of the BDA.

Derrick Willmot has been presenting practical based Straight Wire Appliance Courses in conjunction with TOC for many years and they have proved extremely popular.

Orthodontic Diagnosis & Treatment Planning

Friday 16th May 2014

A one day lecture, participation and practical course designed for General Dental Practitioners who wish to review their orthodontic diagnosis and treatment planning skills. It is particularly suitable for Clinical Assistants and Dentists with a Special Interest in Orthodontics (DwSIs).

Course Objectives

At this course, the attendees will:

- Learn how to examine an orthodontic patient
- Gain an overview of the IOTN occlusal index system and be able to carry out a routine IOTN assessment
- Acquire knowledge of the basics of Cephalometrics and carry out a simple analysis using tracing paper and acetate radiographs
- Become competent in preparing a treatment plan and have an understanding of limitations of treatment

Venue - All courses

The Nottingham Belfry
Mellors Way
Off Woodhouse Way
Nottingham
NG8 6PY
Tel 0115 973 9393

Fee

£325 + VAT
Includes refreshments, lunch and course handout.

Timing

9.15 am - Registration
9.45 am - Start
5.00 pm - Close

Feedback from previous courses

“I can highly recommend this course. Having travelled the country and the world to obtain further training in orthodontics, I was really pleased to find out about this course. The course is very informative and helpful in many ways. It provides a clear structure on how an orthodontic assessment should be carried out, how a treatment plan should be drawn. Prof Willmot is not only a fantastic speaker but also very friendly and approachable.”

Raha Sepehrara, Leicester

“The best course ever, very useful, very interactive and fun too - didn’t look at my watch once!”

Dr Lindsay Harvey, East Sussex
Practical Typodont Straight Wire Appliance Course

Friday 13th - Saturday 14th June 2014

A two day practical course designed for General Dental Practitioners with some basic experience in fixed appliances and access to further clinical guidance. It is particularly suitable for Clinical Assistants and DwSIs.

Course Objectives

At this course, the attendees will:
- Gain an overview of the Straight Wire Appliance
- Be introduced to new techniques now available to help facilitate and speed up orthodontic treatments
- Learn the systematic steps needed to take to achieve good tooth movement with minimal loss of anchorage and understand post treatment retention systems
- Learn good technique through practical sessions including “hands on” exercises of direct bonding and wire placement exercises using typodonts which allow simulated tooth movements in hot water baths
- Learn about the use of auxiliaries and individual technique tips
- Gain an understanding of the fabrication of arch wires for individual cases

Fee

£625 + VAT
Includes lunches, dinner, overnight accommodation for Friday, breakfast, refreshments and course handout.

£550 + VAT
Excluding dinner and B&B.

More Straight Wire & Functionals

Friday 21st November 2014

A one day lecture, participation and practical course designed for General Dental Practitioners with experience in fixed appliances and access to further clinical guidance. It is particularly suitable for clinical assistants and DwSIs. Practitioners who have completed a Practical Typodont Straight Wire Appliance course will be prepared for this course.

Course Objectives

At this course, the attendees will:
- Gain further insight into the use of the Straight Wire Appliance
- Be introduced to new techniques now available to help facilitate and speed up orthodontic treatments
- Understand the use and benefits of ligature free brackets
- Learn about the use of the twin block functional appliance in Class 2 cases

Fee

£325 + VAT (1 day)
Includes lunch, refreshments and course handout.

£625 + VAT if booked with and inc. Part 4
Includes lunches, refreshments, dinner, overnight accommodation for Friday, breakfast and course handout.
