GET Prescription

An orthodontic bracket system designed to optimise both alignment and finishing

GET - Now the most sold prescription by GCO in France with over 32,000 cases

GET
Goals - Evidence - Treatment

Fewer corrections	Less finishing work	More efficient appointments

- Goals - focus on predictable outcome
- Evidence - built on clinical data
- Treatment - streamlines alignment and finishing stages

Come and hear Dr Sunil Hirani speak about how GET can help improve your everyday cases, during the coffee break at the BOC Conference on Friday 25th September on the TOC Stand 41.

BOC
BRIGHTON 2026
24 – 26 SEPTEMBER
BRIGHTON CENTRE, UNITED KINGDOM

The GET prescription from GC Orthodontics is a modified version of MBT, designed to address the most common problems in finishing. The additional combination of wires help to provide you with more control, precision and efficiency in your treatments.

HANDS-ON 1 DAY
TAD COURSES
Using the tomas® anchorage system

tomas® anchorage system

INTRODUCTORY TAD COURSE

10th October 2026 – London
9.00 am – 5.00 pm

Gain all the fundamental and practical knowledge required to start using the tomas® TAD system.

Presented by
Dr. Naeem I Adam
Consultant Orthodontist
BDS(Hons) MFDS PGCert MedEd MSc FDS (Orth)

ADVANCED TAD COURSE

20th November 2026 – London
9.00 am – 5.00 pm

Take your TAD skills to the next level and expand your treatment options with this full day course of lectures and practicals.

Presented by
Dr. Fady Hussein Fahim
Consultant Orthodontist
BDS MSc PhD MOrth RCSEd FDS RCSEd

> ***I would highly recommend this course to practitioners aiming to provide a wider range of treatment options for their patients. Naeem provides a comprehensive guide to the placement and clinical application of Temporary Anchorage Devices, with particular reference to factors leading to success or failure of implant placement, and the biomechanical consequences of differential force application.***

Dr Justin Evans
Specialist Orthodontist

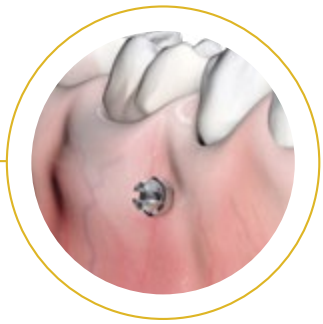
The No 1 TAD System in the US!



The Complete System For All Indications

The tomas® system has been one of the leading skeletal anchorage systems for many years. With the tomas® SD (Self-Drilling) pin and tomas® EP (Elastic Palatal) pin and a selection of abutments for direct and indirect coupling, all requirements for a modern system have been taken into account. Be it distalisation, mesialisation, intrusion, palatal expansion or indirect anchorage: tomas has something to offer both the beginner and the professional in skeletal anchorage systems.

GC Ortho **Connect** ™

NO PRIMER NEEDED

T90-1100-0000

20% DISCOUNT
Pay £66.96

- Reduce time and costs with Ortho Connect. There is no need to apply primer on the tooth as it's already incorporated into the paste, simply etch and dry ready for bonding!
- 2 x 2.9g syringes, 4 x tips, 2 x protective covers

"I love using TOC's GC Ortho Connect light cure bracket adhesive - it's ease of use is its biggest advantage, with no need for priming which cuts out a step saving time & materials. Also its flow consistency is perfect for placing on brackets, I've never had a cement enjoyed by both dentist and nurses. I would definitely recommend this product to every dentist providing fixed orthodontic treatments."

Dr. Gareth McMorrow

Tenvis Instruments

Durable high quality instruments you can trust

Slim - Elegant - Beautiful

Tenvis instruments – starts with a great design, the finest materials and a commitment to quality.

Meticulously handcrafted with up to 30 painstaking steps and multiple inspection points, Tenvis instruments combine aesthetic beauty, great durability and ease of use - perfect for the modern orthodontist.

Metal Brackets

Treat your patients with verve!

verve™ PREMIER COLLECTION

- Guaranteed ease of use
- Treatment efficiency
- Predictable results

Verve™ has an advanced design that combines Metal Injection Moulding (MIM) and Computer Numerator Controlled Milling (CNC). MIM allows for a smaller and more detailed design which has greater strength whilst the CNC milling provides the most accurate of slots for advanced sliding mechanics.

Save time in bond-ups with our pre-loaded kits – at no extra charge!

Easier positioning and increased confidence in bonding with our exclusive offset and extended base options on premolars.

Swingle Contra-angle with or without light

Ortho Strips Tray with 6 strips
*Choice of **Complete set** (1 each orange, red, brown, white, yellow, blue) or **Standard set** (2 x orange, 3 x red, 1 x yellow)*

IPR Distance Control Gauge

- Precise, calibrated reduction of enamel with a step by step protocol, ensuring maximum safety
- Contouring, finishing and final polishing
- Rapid and controlled system – achieves 20 minutes of manual IPR in approx 60 seconds
- Contra-angle handpiece with integrated water spray
- Air Motor Option available - please specify when ordering

TESTIMONIALS

"I have been using the Swingle for 5 years and it has changed how I deliver IPR for both aligners and fixed appliances.

The Swingle offers control and contouring not possible with other motorised IPR instruments.

I would highly recommend this appliance for anyone carrying out IPR."

Dr. Farooq Ahmed
Consultant Orthodontist

"The Swingle has made carrying out IPR much more efficiently in my clinical practice; the initial contact point opening strip is particularly helpful.

Being able to rotate the position of the handpiece and to bend the individual IPR strips to match the contour of a given tooth also make posterior IPR a lot more predictable.

I would definitely recommend it to clinicians wanting to perform IPR stress-free."

Dr. Tom Frawley
Consultant and Specialist Orthodontist

Ortho-Strips

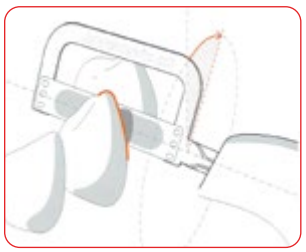
Our unique Central Strips allow the highest precision in the approximal reduction, finishing and polishing of enamel, respecting the original morphology and dental tissues.

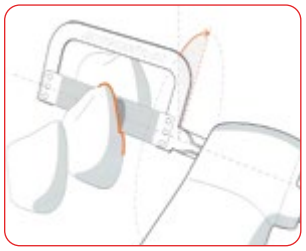
They provide the safest form of IPR avoiding the creation of a step on entry due to the non-diamond coated lower edge of the strip and prevention of dentine abrasion.

BUY 3 PACKS OF ORTHO-STRIPS GET 1 PACK FREE*

- Easier entry into the interdental contact points
- Conservation of the original morphology of the middle part of the tooth

- Prevention of cervical steps
- No unnecessary removal of dentine
- No dentine hypersensitivity





Unique Patented design

Eruptor Eyelet

Fully erupted teeth in only 1 visit!

esmail eruptor™

- The Esmail Eruptor™ eyelet is offset from the bonding pad allowing the tooth to be bonded as soon as it erupts but still allows full activation of the NiTi wire.
- No need for constant repositioning of the bracket which only allows 1 - 2mm of eruption.
- 80-gauge mesh base.
- Ideal for canines and second premolars.

Single tube allows full activation in one visit.

JB-500-00, £31.50 Pk 10

Double tube allows sequential activation, perfect for those high canines which may need to be moved in stages.

JB-500-01, £31.50 Pk 10

Open space to allow impacted canine to erupt.

Esmail Eruptor is bonded and 0.014" wire ligated.

6 weeks later and the canine has fully erupted.

SEE HOW IT WORKS!

Orthodontic &
Specialist Dental Supplies

SUPPORTING ORTHODONTIC PROFESSIONALS FOR OVER 30 YEARS

ABOUT US

TOC (The Orthodontic Company) has been serving orthodontic professionals in the UK and Ireland for over 30 years, working globally to bring you the highest quality and innovative orthodontic products that help improve efficiencies in treatments.

We are proud to be appointed distributors for GC Orthodontics, Dentaurum, Reliance, Intensiv and Shock Doctor in addition to offering our own ranges of popular products. Our vast catalogue includes everything required for fixed appliance treatment including brackets, wires, TADs, instruments, IPR, and patient care as well as a full range of Aligner accessories to help ensure your aligner treatments are a success.

Our dedicated orthodontic sales team are extremely knowledgeable and experienced, and can provide help and guidance with all our products, there is nothing TOC can't help with!
