Ghost™

INVISIBLY BRILLIANT

Sapphire aesthetics with polycrystalline strength and durability

With extraordinary aesthetics, Ghost provides precision and control with superior performance features that can only be achieved with highly sophisticated ceramic injection moulding technology. The result is a truly remarkable bracket system that takes aesthetics, performance and durability to unprecedented heights.

- Brilliant aesthetics without the glare of conventional sapphire brackets
- Excellent strength and fracture resistance
- Significantly less friction than other sapphire brackets providing shorter treatment times

Consistent high quality guaranteed

High quality nickel titanium and thermal nickel titanium wires which are designed to provide a low continuous force, with superior shape memory and elasticity characteristics. Manufactured to precise tolerances, Hi-Q wires offer all the features and benefits you would expect from a high performance wire.

- Super elasticity - very flexible and easy to engage
- Polished finish - low friction
- Superior shape memory - stays active right throughout treatment
- Low, constant force - for most efficient tooth movement and increased patient comfort
- Rigorous quality - every wire performs the same

Premium Aesthetic Archwires

Our unique new matt wire treatment diffuses light so the wire blends with the teeth and brackets seeming to disappear in the mouth. This special treatment means there is no coating or plating to peel off as with old style wires - this is the aesthetic wire you've been waiting for!

- Blends well with all aesthetic brackets and tooth shades
- Highly durable, lasting until the next wire change
- Resistant to staining
- Low friction, similar to non-aesthetic wires

**BUY 10 PACKS

LIST PRICE: £45.10 - Round / £47.20 - Rectangular. (Round and rectangular may be mixed).

TruPix™

Rhodium is the key!

TruPix Mirrors are coated with Rhodium, one of the earth's rarest elements and the world's most expensive precious metal. TruPix Mirrors offer superior reflectivity compared to both stainless steel and chrome mirrors. They are double sided for increased durability, have incredibly smooth edges for extra patient comfort and are fully autoclavable.

**3 Year
Warranty**

FlowTain™

Flowable LC Composite

FlowTain's low viscosity makes it ideal for bonding lingual retainers, splinting materials and indirect bonding of brackets. It's very smooth when cured which will reduce wear and enhance patient comfort.

- Flowable viscosity - even though FlowTain is a flowable material, its thixotropic properties prevents it from slumping for better control
- Cured composite flexibility - when cured FlowTain has a low modulus of elasticity and is not as brittle as conventional composites
- Needle tip dispenser allows FlowTain to be easily injected onto lingual surfaces and across fibre splints

LIST PRICE: £29.95 (TOC-FT)

Ortho-Flextech™

Retainer Wire

Clinically proven, Ortho FlexTech naturally forms to the lingual arch curvature making it easy to fit in the chair. The chain lays flat against the teeth offering improved patient comfort and lasting aesthetics. 14 carat gold and stainless steel options available. An etched version is also available for improved adhesion.

LIST PRICE: £165.22 - Gold / £171.05 - Gold Etched
£104.79 - Stainless Steel
