Orthodontic Symposium | **Mallorca**

September 8-9, 20**23**

Aligners, Brackets or Both?

2 days of lectures with 11 international experts

Join us for two days among colleagues, in a spectacular setting, featuring both a fantastic social and educational program, with leading experts in digital orthodontics, aligner treatment and conventional orthodontic treatment. We guarantee no speaker will try to “sell” you during the presentations.

Dr. Tony Weir - Australia

Aligner treatment : the journey from hope to honesty (2 lectures)

Pr. Michel Le Gall - France

Manage the transversal dimension for children. Clear aligners or Quadhelix

Pr. Carlaberta Verna - Switzerland

Bone modification through orthodontic treatment : where are we ?

Dr. Antonino G. Secchi - USA

Simplifying excellence in treatment mechanics

Dr. Oliver Liebl - Germany

Scan to retention – digital solutions in modern orthodontics

Dr. Ute Schneider-Moser - Italy

Why I am not throwing away my storage of brackets (yet)

Dr. Vincenzo D'Antò - Italy

Clear aligners : how to transform your digital project in a clinical reality

Dr. Björn Ludwig - Germany

1- Digital orthodontics – the challenge to combine evidence with innovations.
2- Surgical orthodontics – beyond plastic – the most interdisciplinary era of orthodontics

Dr. Diana Boangar - Romania

Soft and hard tissues remodeling using orthodontics

Dr. Berza Sen Yilmaz - Turkey

The alternative options for non-surgical correction of class 3 cases

Dr. Stefano Troiani - Switzerland

How to move teeth VS where to move teeth. Are our priorities the right ones?
